

# Asian Young Holy Family Seekers

Flash – 09  
16.05.2015

Mother Earth continues to provide us with her natural giftedness – allowing the sun to smile at us, the breeze to touch us, the birds to entertain us with music and the trees to challenge us to growth, the sand to feel the ground of our Being.

The Seekers elaborated on her maternal quality of “Giving” in the symbol of running water that came as a reminder of our need to thirst for God like the deer that yearns for running streams. The Seekers challenged themselves of “how they feel” in facing life’s situations in prayerful atmosphere and the symbols were the many varieties of flowers. They brought in the purpose of their Gathering and invoked the Lord to guide them to choose those things that are life-giving.

## NEWS IN BRIEF

The Seekers spent their early morning hours to gather the News from all around the world and connect each one to be present to the daily events of their respective Countries. News in Brief with speed, touch and reality – Wow! They are Gifted indeed!

## RECAP WITH WARM-UP

Sr. Christa Mariathas, the Unit Leader of Jaffna with the giftedness to draw the attention and to bring forth the energy that lies dormant within – warmed up the Seekers with lively and meaningful exercises. The Young Seekers became “childlike” in participating and calling each other to join and making it special for themselves. Sr. Christa slowly led them from being “care free” to something serious and down to earth work that is in hand for the day.

Sr. Shanthi and Jesmin took up the responsibility to explain the continuation of the day’s work and the Seekers were given quality time to reflect personally and to work in small Groups to go over the work of the previous day and to decide for themselves if they want to keep them the way it is as Expectations or amend them if necessary. The Seekers agreed to work on the draft in their small Groups. The Unit Leaders and the Sisters Representing the Units were requested to be with the groups for a short time to give moral support and some help if they need.

The amended Expectations with additional points were discussed in the Open Forum. The afternoon Activity was seen as “The Important”, as the Seekers were to draw up the Priorities. The suggestion was to do it at UNIT LEVELS with the Unity Leaders and the Sisters Representatives.

The Seekers and the Leaders were seen busy and occupied in discussion, sharing, writing and checking the points carefully. It was a fruitful and enriching time that they spent Together to draw up the Action Plan for the THREE Priorities surfaced – namely :

- Formation
- Family
- Ministries

It was taken up in the Open Forum for Presentation and Common Discussion. Each Unit presented their Action Plan and the Seekers were requested to make comments and to ask for clarifications. They interacted very meaningfully and effectively drawing out from each other the needed explanation.

It was a very fruitful afternoon – with mutual interaction, deep sharing, attentive listening mingled with deep respect for each other.

*It's only day Nine*
